

Interested in Composting?

The Temple Sinai Green Team is exploring interest in a composting program to reduce the amount of food scraps and organic waste we throw in the trash. Instead, we can send these materials to be composted and receive compost back for our yards and gardens. This is **good for the planet and great for our gardens!**

We're partnering with Compost Crew, a locally-owned business that provides convenient curbside food scrap collection.

Let us know you are interested by signing up at this link:

<https://tinyurl.com/yxp3sqcz>

Please add your name to the form **even if you are an existing Compost Crew customer**, so that we can keep track of our totals.
