## NURSERY SCHOOL

### IMPORTANT INFORMATION REGARDING YOUR ORAL HEALTH ASSESSMENT

- The D.C. Office of the State Superintendent of Education requires that all enrolled children ages 3 and above\*\* see a Dental Provider and have an Oral Health Assessment on file (whether you live in D.C., Maryland or Virginia).
- A new form is required each year on the anniversary date of the last oral health assessment.
- \*\*Please call your dentist to make a dental appointment for your two year old at least three months before their third birthday. Dental appointments are booked well in advance, and DC requires a valid Oral Health Assessment form on file AS SOON AS a child turns three. Regulations require this form to be on file at the Nursery School by your child's third birthday.
